Ethan Soh

Applied AI · Agent Engineering · AI CTF Pen Tester

Singapore · ethan.soh2008@gmail.com · linkedin.com/in/ethan-soh2008 · github.com/Sohwhat6420

Available for a 44-week Year 3 internship from 12 April 2027 (to 11 February 2028).

Cybersecurity and Digital Forensics student (Singapore Polytechnic, Year 2) who builds AI agents with safety built in: an Android bridge for MCP agents and a multi-agent harness with fail-closed guards. Anthropic Claude Certified Architect – Foundations (CCA-F) and ISC2 Certified in Cybersecurity; top 0.5% at Hack The Box Cyber Apocalypse 2026. Seeking a 44-week internship in applied AI and AI security, from April 2027.

CERTIFICATIONS

Claude Certified Architect – Foundations (CCA-F)
Anthropic · issued Sep 2026, valid to Sep 2027
View on Credly

Certified in Cybersecurity (CC)
ISC2 · issued Jan 2026, valid to Jan 2029
View on Credly

Anthropic Academy
5 courses incl. Claude Code 101 and Claude Platform 101 · Jul 2026

EDUCATION

Singapore Polytechnic
Diploma in Cybersecurity and Digital Forensics · Apr 2025 – Mar 2028

Edusave Academic Achievement 2026 (top 25%)

Modules

Completed: Digital Forensics and Investigation (Distinction) · Personal Branding and Career Agility (Distinction) · Ethical Hacking Essentials · Offensive Security · Linux Administration and Security · Securing Microsoft Windows · Infocomm Security and Network Fundamentals · Back-End Web Development · Front-End Web Development · Programming Methodology · Computer Organisation · AI for Impact · Data and Digital Literacy

In progress: Malware Reverse Engineering · Applied Cryptography · Data Protection for Cyber Security · Sustainable Innovation Project

Kuo Chuan Presbyterian Secondary School
GCE O-Level, L1R4: 9 · 2021 – 2024

SKILLS

AI Claude Code, Claude Platform, Prompt Engineering, Model Context Protocol (MCP), multi-agent orchestration

Build JavaScript, Next.js, React, Supabase; VS Code, Power BI

Security Digital forensics, CTFs, binary exploitation (pwn), computer networking

Spoken English, Mandarin

AWARDS

Founder's Award
The Boys' Brigade in Singapore · Jun 2024 · highest award in the Senior Programme

Best Primer Merit Award
The Boys' Brigade, 5th Company · 4 Apr 2026

MOE EAGLES Award; Edusave Good Progress Award
Nov 2024

AI AND ENGINEERING PROJECTS

Unburden Root: multi-agent harness · Personal project — Jul 2026 – present

- Built the multi-agent harness I run my own projects on: Claude Code sessions work as named roles (orchestrator, reviewers, stage sessions) with shared memory and rules.
- Routes each task to a model pool by cost and urgency; a PII guard fails closed (it refuses when unsure) and has its own test cases.

Agentroid: Android bridge for MCP agents · Personal project — Oct 2026 – present

- Designed an MCP server that lets an MCP client (tested with Claude Code) drive Android emulators; the calling agent does the reasoning, so no model API key is needed. Release planned.
- Directed AI coding agents to build a Rust core (11 crates), a TypeScript MCP server and a Python SDK; designed the safety model (deny-by-default adb, device allowlist, risk labels R0–R5).

BB Master Portal (in development) · Boys' Brigade 5th Company — Jul 2026 – present

- Building the awards and attendance records and training-programme imports for the Company (Next.js, React, Supabase); in development.
- Applied for a National Youth Council YCM grant (Sep 2026).

AI Hackathons 2026 — Mar – Oct 2026

- Developed and submitted an agentic AI solution (team Unburden, Public Category) at the NUS-ISS Show Me Your Agents hackathon (with AWS and the Singapore Business Federation); joined the National AI Student Challenge, Workato MCP track, as a participant, exploring an MCP server for SIEM workflows.

Shipped on GitHub detached-run, reddit-pull, Sidemic, designyourtv

SECURITY COMPETITIONS

Hack The Box Cyber Apocalypse CTF 2026: 30th of 6,744 (top 0.5%) — Jul 2026

- Captured all 136 flags (69,425 points) with Team Mythos Larpers.

Singapore Cyber Conquest 2026: Student Finalist (top 20) — Oct 2026

- Qualified as one of the top 20 student teams online (CSA and TrendAI); competed in the onsite finals.

DSTA BrainHack 2026, CDDC: Finalist, Explorer category — Jun 2026

CyberBlitz Challenge Creator 2026 · SP Gryphons — 2026

- Wrote pwn challenges, each with a Docker deployment, a solver and a writeup.

Also DEF CON Singapore 2026 (28–30 Apr; represented SP Gryphons) · Black Hat Asia 2026 · OB1 Conference 2026 (attended, SP student sponsorship) · TISC 2026 (CSIT): Participant

LEADERSHIP

Senior Cadet Lieutenant (Primer) · Boys' Brigade 5th Company — Dec 2024 – present

- Served as second-in-command of Blaze 2026 and trained 3 teams for an interschool 21 km adventure race.
- Served as Assistant Camp Commandant, Adventure Camp 2026, and third-in-command of the Awards Department; the only Drill Instructor at 5th Company in 2026. Invigilating and Assisting Primer IC, BBHQ Drill Master 2026 (7 Nov).

Senior Executive Committee Member · SEED (Computer Science Club), SP — 2026

- Organised and hosted the "How to COMe Home" Computer Organisation crash course for juniors (two sessions); helped build its slides and an interactive HTML tutorial with quizzes.

WORK

Academic Content Assistant · Alchemy Education Studio — Feb 2025 – Oct 2026

- Completed every 6093 Biology paper (Sec 3 and 4), now used by the tuition centre; built a harness that drafts and checks them.
